MEDIUM	JAN	FEB	MAR	APR	MAY	JUN	JUL	AUG	SEP	ОСТ	NOV	DEC
Beans, Snap												
Corn, Sweet												

	LATE	JAN	FEB	MAR	APR	MAY	JUN	JUL	AUG	SEP	ОСТ	NOV	DEC
	Beans, Lima												
В	Cucumber												
	Eggplant ⁴												
	Muskmelon												
В	Okra												
	Peas, Southern												
	Pepper⁵												
	Soybean												
В	Tomato ⁶												
В	Squash, Summer												
В	Squash, Winder												
	Sweet Potato												
В	Watermellon												

Α	Halfwidth (double rows) 12"-14" apart
В	Double width (skip rows) t" apart. All others regular 36" apart including tomato in wire cages.
2	For cabbage plants, plant seed indoors December 30.
3	For lettuce plants, plant seed indoors January 10.
4	For eggplant plants, plant seed indoors in February.
5	For pepper plants, pla nt seed indoors March 1.
6	For tomato plants, plant seed indoors March 1.
To esc	ape risk with cucumber, eggplant, muskmelon, tomato, squash and watermelon, use hotkaps or delay planting two weeks.
lote:	Crops usually do best when planted in the earlier part of each period shown. Spring planted tomato, eggplant and okra usually bear until frost.
